

## IoT for Reservoir Lifecycle Integrated Production Management as a Service

### Outline

CTC (ITOCHU Techno-Solutions) provides comprehensive connectivity and analytical tools for all range of energy sectors. IoT platform "Voice of the Oilfield™" (powered by Halliburton / Landmark) and "E-PLSM" (by CTC) are utilized to deliver Customized Applications as Services.

### What can be achieved

- **Cloud** holds all Data available for use.
- **Analyze** the Real Time Data and your **Assets** get maximized productivity.
